

Citra-Hex Solution Safety Data Sheet (SDS)

Section 1: Chemical Product and Company Identification
Product Name: Citra-Hex Solution Chemical Name: Citric Acid, Sodium Hexametaphosphate
Contact Information:
Paramount Chemicals & Plastics, Inc. CCN 811901 Warehouse: 14470 S State Road 29 Felda, FL 33930 Phone: (863) 674-1800 Fax: (863) 674-1802 E-mail: kenatparamountchem@earthlink.net
CHEMTREC - 24 Hour Emergency Telephone- call: 1-800-424-9300 CCN 811901
Section 2 - Hazards Identification
Potential Acute Health Effects: Hazardous in case of eye contact (irritant), of ingestion. Slightly hazardous in case of skin contact (irritant, sensitizer), of inhalation.
Potential Chronic Health Effects: CARCINOGENIC EFFECTS: Not available. MUTAGENIC EFFECTS: Not available. TERATOGENIC EFFECTS: Not available. DEVELOPMENTAL TOXICITY: Not available. Repeated or prolonged exposure is not known to aggravate medical condition.
Section 3 - Composition / Information on Ingredients
CAS # 10124-56-8 or 68915-31-1 Sodium hexametaphosphate.
Toxicological Data on Ingredients: Sodium hexametaphosphate: ORAL (LD50): Acute: 6200 mg/kg [Rat] 4320 mg/kg [Mouse]. 3053 mg/kg[Rat].
CAS# 77-92-9 Citric Acid.
Toxicological Data on Ingredient: Citric Acid: ORAL (LD50) 5400mg/kg [Rat]

Section 4 - First Aid Measures

First Aid: Eyes

Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least fifteen (15) minutes. Cold water may be used. Get medical attention.

First Aid: Skin

For skin contact, immediately wash extremely thoroughly with soap and water. Get medical attention if irritation develops or persists.

First Aid: Ingestion

DO NOT INDUCE VOMITING unless directed to do so by medical personnel. Never give anything by mouth to a victim who is unconscious or having convulsions. Contact a physician or poison control center immediately.

First Aid: Inhalation

If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.

Section 5 - Fire Fighting Measures

Flammability of the Product: Non-Flammable.

Auto-Ignition Temperature: Not applicable.

Flash Points: Not Applicable.

Flammable Limits: Not Applicable.

Products of Combustion: Not Available.

Fire Hazards in Presence of Various Substances: Not Applicable.

Explosion Hazards in Presence of Various Substances: Risks of explosion of the product in presence of mechanical impact: Not available. Risks of explosion of the product in presence of static discharge: Not available.

Fire Fighting Media and Instructions: Not applicable.

Special Remarks on Fire Hazards: When heated to decomposition it emits highly toxic fumes of phosphoxides and Na₂O. Behavior in a fire: It may melt with loss of steam.

Special Remarks on Explosion Hazards: Not available.

Section 6 - Accidental Release Measures

Small Spill: Use appropriate tools to put the spilled solid in a convenient waste disposal container. Finish cleaning by spreading water on the contaminated surface and dispose of according to local and regional authority requirements.

Large Spill: Use a shovel to put the material into a convenient waste disposal container. Finish cleaning by spreading water on the contaminated surface and allow to evacuate through the sanitary system.

Section 7 - Handling and Storage

Handling Procedures

Do not ingest. Do not breathe dust. Avoid contact with eyes. Wear suitable protective clothing. If ingested, seek medical advice immediately and show the container or the label. Keep away from incompatibles such as oxidizing agents, acids.

Storage: Keep container tightly closed. Keep container in a cool, well-ventilated area.

Section 8 - Exposure Controls / Personal Protection

Engineering Controls

Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. If user operations generate dust, fume or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit.

PERSONAL PROTECTIVE EQUIPMENT

Splash goggles, Lab coat, dust respirator, Be sure to use an approved/certified respirator or equivalent. Gloves.

Personal Protection in case of large spill: Splash goggles. Full Suit. Dust respirator, Boots, Gloves. A self contained breathing apparatus should be used to avoid inhalation of the product. Suggested protective clothing might not be sufficient; consult a specialist BEFORE handling this product.
Exposure Limits: Not available.

Section 9 - Physical & Chemical Properties

Physical state and appearance: Solid

Odor: Odorless.

Taste: Not available.

Molecular Weight: (101.96)*6 or 611.52g/mole

Color: White

pH(1% soln/water): 7[Neutral]

Boiling Point: 1500 C (2732 F)

Melting Point: 550 C (1022 F)

Critical Temperature: Not available.

Specific Gravity: Density: 1.25(water=1)

Vapor Pressure: Not available.

Vapor Density: Not available

Volatility: Not available.

Odor Threshold: Not available.

Water/Oil Dist. Coeff.: Not Available.

Ionicity(in Water): Not available.

Dispersion Properties: See solubility in water.

Solubility: Easily soluble in cold water, hot water. Soluble in water, but it dissolves slowly. Depolymerizes in aqueous solutions to form sodium trimetaphosphate and sodium orthophosphates. Insoluble in organic solvents.

Section 10 - Chemical Stability & Reactivity Information

Stability: The product is stable.

Instability Temperature: Not available.

Conditions of Instability: Incompatible materials.

Incompatibility with various substances: Reactive with oxidizing agents.

Corrosivity: Slightly corrosive in presence of steel.

Special Remarks on Reactivity: Hygroscopic; keep container tightly closed.

Special Remarks on Corrosivity: Not available.

Polymerization: Will not occur.

Section 11 - Toxicological Information

Routes of Entry: Inhalation, Ingestion.

Toxicity to Animals: Acute oral toxicity (LD50): 3053 mg/kg [Rat].

Chronic Effects on Humans: Not available.

Other Toxic Effects on humans: Hazardous in case of ingestion. Slightly hazardous in case of skin contact (irritant, sensitizer), of inhalation.

Special Remarks on Toxicity to Animals: Not available.

Special Remarks on Chronic Effects on Humans: Not available.

Special Remarks on other Toxic Effects on Humans: Potential Health Effects: Skin: May cause skin irritation. Eyes: Causes eye irritation. Inhalation: May cause respiratory tract irritation. Symptoms may include coughing and shortness of breath. Ingestion: Phosphates are slowly and incompletely absorbed when ingested, and seldom result in systemic effects. However, such effects have occurred. May cause gastrointestinal tract irritation with nausea, vomiting, and diarrhea. May affect behavior/central nervous system/peripheral nervous system (somnolence, convulsions, lethargy, flaccid paralysis), urinary system (kidneys-renal failure, acute tubular necrosis). It may also cause heart disturbances (fall in blood pressure, slow pulse) and blood chemistry effects (reduction of serum level of calcium). The toxicity of

phosphates is because of their ability to sequester calcium. Systemic metabolic acidosis may result as this material is believed to be hydrolyzed to ortho phosphates when ingested (before absorption). Tetany may also occur as a result of reduction in serum level of ionic calcium.

Section 12 - Ecological Information

Ecotoxicity: Not available.

BOD5 and COD: Not available.

Product of Biodegradation: Possibly hazardous short term degradation products are not likely. However, long term degradation products may arise.

Toxicity of the Products of Biodegradation: The product itself and its products of degradation are not toxic.

Special Remarks on the Products of Biodegradation: Not available.

Section 13 - Disposal Considerations

Waste Disposal: Waste must be disposed of in accordance with federal, state and local environmental control regulations.

Section 14 - Transportation Information

DOT Classification: Not a DOT controlled material(United States)

Identification: Not applicable.

Special Provisions for Transport: Not applicable.

Section 15 - Other Information

Last Updated: 04/2017

Federal and State Regulations: Pennsylvania RTK: Sodium hexametaphosphate Massachusetts RTK: Sodium hexametaphosphate New Jersey: Sodium hexametaphosphate TSCA(8b) inventory: Sodium hexametaphosphate

Other Regulations: EINECS: This product is on the European inventory of Existing Commercial Chemical Substances.

Paramount Chemicals & Plastics, Inc. ("Supplier") shall not be responsible for the use of any information, product, method, or apparatus herein presented ("Information"), and you must make your own determination as to its suitability and completeness for your own use, for the protection of the environment, and for health and safety purposes. You assume the entire risk of relying on this Information. In no event shall Supplier be responsible for damages of any nature whatsoever resulting from the use of this product or products, or reliance upon this Information. By providing this Information, Supplier neither can nor intends to control the method or manner by which you use, handle, store, or transport Supplier products. If any materials are mentioned that are not Supplier products, appropriate industrial hygiene and other safety precautions recommended by their manufacturers should be observed. Supplier makes no representations or warranties, either express or implied of merchantability, fitness for a particular purpose or of any other nature regarding this information, and nothing herein waives any of Supplier's conditions of sale. This information could include technical inaccuracies or typographical errors. Supplier may make improvements and/or changes in the product (s) and/or the program (s) described in this information at any time.
